Other - Easter Eggs / Facts

Ammo Trick

If you pick up the regular shotgun at your hideout (from starfish island) and then go out and find the spas or benelli shotgun out in the city, your 50 shells from the regular shotgun will be transferred to the new upgraded gun you picked up. If you were to pick up the upgraded shotgun without doing this you would only receive 20 or so shells but this way you get roughly 70. This trick works with other guns also that share similar bullets.

Beach Ball

Go to Starfish island. When heading west, go into the first house on the right. In the empty pool there is a beach ball. When you run into it, it will bounce. Bounce it on your head and numbers will appear. (The trick is to always be in the shadow of the ball.)

Bullet Proof Cars

Admiral. Also fire-proof, explosion-proof, and collision-proof. Activate the Guardian Angels mission (from Colonel Cortez), and kill the Haitian gang members. The Admiral is the white car Diaz drives in the cut-scene. Deliberately fail the mission by killing Diaz, Lance, or letting the Haitian biker escape with Diaz's money. Once the mission fails, the Admiral's doors will be unlocked and you can drive it back to the garage of your choice. Naturally, you will need to purchase property that has a garage first. Sabre Turbo. Pick up a sniper rifle or assault rifle that allows Tommy to shoot through a first person view. During the mission "The Driver" (this mission is available only after certain conditions are met, primarily buying the Malibu Club) remain at the Malibu Club and wait for the Sabre Turbo come for the race. When it does, shoot the driver in the head and seize it quickly before the cops come. The Sabre Turbo is faster than the Admiral, but is not collision proof.

Buy Companies Wisely

An advantage of buying expensive companies rather than smaller ones first is you can get more money in return. For example, if you buy the Print Works for \$70,000, you can get \$8,000 dollars a day to make buying the other companies easier. Don't forget that you have to complete a certain mission in the Vercetti Missions before you can purchase companies, and you also need to finish the missions related to those companies.

Dial the Numbers

Write down the phone numbers you hear on the radio commercials in the game. They all work! Here's a list:

* 1-866-PILLAGE

* 1-866-9-BURY ME

* 1-866-9-SAVE ME

* 1-866-9-SHADEE

* 1-866-434-SELF

Easier Flight From Justice (Cortez)

Once you reach the final mission for Cortez, it's a long mission of shooting boats and people, just do this: get 2 cars and park them in the pier next to the one to enter Cortez's missions, and put them in a way so that it's practically impossible to get across through the pier (it's easier than it sounds), and go do the mission. When you start the mission a cutscene will come that shows a bunch of people trying to come through the pier you blocked, but they can't. They really would have if not done. Then you can relax on your boatride with Colonel Cortez. There may be a few people at the end but it makes life a whole lot easier since you saved yourself a lot of trouble of killing about fifty to seventy people.

Easter Egg: Find the Easter Egg

Leap off the corner of the VCTV building toward the nearest building to find a hidden room that contains a secret easter egg.

"Easter Egg" Easter Egg

Head to the 8-10 VCN Building (the news building) on the west island of Vice City. The news building is by the northern bridge entrance on the west island. You can enter the door of the news building and head up to the roof. Along with the news chopper, there's an easter egg you can get to. There's another building close by, but on an angle with the window closest to the edge of the heliport. Make a sprinting jump through the window and you should see an empty room with an easter egg in the middle.

Easter Egg: He Sleeps With the Fishes

Get a boat... and go between The "Leaf Links" Golf club and the third island. GO up to the rock and stop your boat get the sniper rifle in the cheat and look down on the rocks you will see a man in boxers with concrete on his feet.

Enter Golf Course Without Losing Your Weapons

Here is a way to enter the golf course without having your weapons get confiscated. First, take the Comet nearby and drive it next to the fence. Get out and jump onto the car. Jump onto the fence, and then jump onto the second fence at a diagonal angle and drop down past it. You will make it into the golf course with all your weapons. This trick can be useful for the "Four Iron" mission.

Free Money From Parking Meters

Drive over parking meters to empty cash into the streets. It's free money!

Increase the Tank's Speed

Turn the tank's turret around so it faces backwards. Now keep firing while accelerating and you will go a lot faster.

Instant Health Power-Up

This trick worked in GTAIII as well. Drive up next to a hooker and wait. If you're driving a swank enough car, she'll start talking to you. Eventually, she'll get into the car. At this point, drive to a quiet spot and let the magic happen. The car will start rocking, and your "health" will grow from 100 to 125. Your pocketbook will take a hit though. This health-up only works until the next time you die.

Porno Flyers

After you complete the mission that dumps porn flyers all over the city, the flyers will continue to blow around town as long as you're playing the game.

Reduced Felony

If you want to kill cops without receiving a load of wanted stars, use the main blade of a helicopter and angle it so that the blade hits them. You accrue less "wanted points" this way.

Rob the Bank

After you've completed the Malibu mission "The Job", you can rob El Banco Corrupto Grande for some easy money. Walk in and turn right up the stairs. This will earn you a four star wanted level. Walk into the manager's office to get 1/3 of the cash. The rest is in the room with the elevator, on the right side. Then jump off the balcony and run out. To shake the cops, you can turn left to the nearby Pay N' Spray. It's not much, but it's easy cash.

See the Village People

Go into the Malibu Club and take a gander at the stage. There, you'll find a reasonable facsimile of the Village People.

Scarface Easter Egg

There's a Scarface easter egg in the form of a bloody bathroom and a chainsaw weapon. Go to the Pay N' Spray at Ocean beach, then go south and take the first left. On your left, you'll see a two story apartment with two sets of stairs on the second floor. Head up the stairs to the right and you'll see a black doorway. Check out the bathroom in apartment 3c and compare it to the movie.

Shoot the Moon

The moon changes size when shot at with the Sniper Rifle, just like in GTA3.
