1. Overview

Thank you for downloading this Free eBook. It means you actually care about profiting from Neobux, rather than being a “statistic” ... because statistically, most people fail in PTC’s. In this simple guide, we will show you how to make \$20 a day with Neobux. It may seem simple, but this strategy requires some time and patience.

Please keep in mind the following
terms: RR = rented referrals
DR = direct referrals

This eBook only covers the “fundamentals” of getting started Neobux. The guide you are about to read is only the tip of the iceberg - it is only meant as an introduction to **The PTC Code**. To download the complete Guide, go here: <http://the-ptc-code.com>

Phase 1

Start clicking ads everyday and don’t miss a single one. This is crucial in the beginning as you are just starting out and don’t have any referrals. Also, in this stage, you are trying to get *100 clicks* so that you can start having DR’s.

When you reach \$0.60 in your balance, it is time to rent your first referrals 3 referrals.

$0.001 \text{ per ad} \times 5 \text{ ads a day} \times 120 \text{ days} = \0.60

Phase 2

Once you have \$0.60 in your balance, rent the first 3 referrals. At this point, turn autopay on. This option is available from the referrals list menu. Referrals cost 0.30 a month to maintain. Instead of paying for the referral, they will pay themselves as long as autopay is on. You get one penny less from each referral, but they will be your referral as long as they are active.

As a standard, you receive 0.005 per click from each RR.

Referral clicks

$0.005 \text{ per ad} \times 4 \text{ ads a day} \times 3 \text{ referrals} = \0.06 per day

Total earnings: \$0.06 per day

Phase 3

Keep renting referrals by increments of 3 once you have the money. You can rent bigger packages as you make more money. RR Packages come in sizes of 3, 10, 20, 40, etc. Repeat this process until you have 300 referrals. This will take a few months to accomplish, and this is where most people flake out.

Referral clicks

$0.005 \text{ per ad} \times 4 \text{ ads a day} \times 300 \text{ referrals} = \6 per day

Total earnings: \$6 per day

Note: this example assumes that all referrals are active daily. It is not an ideal world, and this kind of scenario is highly unlikely. These numbers are for illustrative purposes only. You will need more than 300 referrals to have 300 active referrals.

When you reach 300 referrals, stop buying referrals and just maintain the ones you already have. Keep doing this until you have \$90 in your balance, and you can use it to pay for the Golden upgrade.

Phase 4

Once you reach Golden, your referral earnings will double. You will get 0.01 per referral click instead of 0.005. Also, you will get 0.01 on personal clicks, instead of just 0.001!

Referral clicks

$0.01 \text{ per ad} \times 4 \text{ ads a day} \times 500 \text{ referrals} = \20 per day

Personal clicks

$0.01 \text{ per ad} \times 10 \text{ ads a day} = \0.10 per day

Total daily earnings:

$20.00 + 0.10 = \$20.10 \text{ per day}$

At this point, it may be tempting to cash out. I don't recommend cashing out until you have 2000 referrals. Until then, save up your money to rent RR's until you have 2,000. At this point, you should be making well over \$30 to \$40 a day.

2. Pitfalls to Avoid

Getting direct referrals too early

This is a common newbie mistake. You can only have DR's after you have been registered for 30 days and have 100 personal clicks. We recommend that you become familiar with Neobux's rules and FAQ. You can't play the game if you don't know the rules.

Cashing out too early

This is another common pitfall, mostly with impatient people. In order to see if Neobux is legit, many people will earn \$1.00 and then cash out. Great, you now have a *whole dollar* in your paypal account. That dollar should have been put towards renting referrals.

Skipping days / Quitting

A lot of people skip days of clicking on ads, especially in the beginning. Maybe they forgot to, or maybe they're just not motivated. Whatever the reason, skipping days will slow your progress, and your game plan to wealth is delayed. The solution to this is having proper motivation. Our *newsletter* will provide the motivation you need to stay active. If you've downloaded this ebook, you are already subscribed to the *newsletter*, so you do not need to do anything at this point.

3. Free Direct Referrals

A guaranteed, sure fire way to get direct referrals for free is to use *Traffic Exchanges*. In a nutshell, this is how a traffic exchange works. You surf a bunch of websites, earning 1 credit per visit. For 1 credit, you will receive 1 view on your website.

The main reason that referrals stop clicking is that often they are obligated to join Neobux. If you advertise at a TE site, only those who are interested will join. Your clicking average becomes much higher as a result, because the referrals will want to do it.

EasyHits4U is one of the most well known traffic exchanges around. They have a large user base with over 400,000 members, and that means lots of potential referrals! Their system is easy to use and they have tons of tools for you to promote your websites. EasyHits4U is definitely worth a look.

4. Watch Out for Scams

The scam rate for bux sites is very high – it feels as if everyday, a bux site becomes a scam, and in the same day, another bux site is born. In this field, you need to take certain measures to protect yourself from being scammed. The good news is that when a site is becoming a scam, there are certain tell-tale signs that indicate as such. Usually these signs are pretty obvious, so we will list them out for you.

✖ ***Signs of abandonment***

If the admin does not answer questions on the forum, or if there are broken links or errors on the site, and they are not being fixed, these are signs of abandonment. Maybe the admin has given up on the site, so watch out for these signs.

✖ ***Many complaints***

If a site has many complaints against it, pay close attention, because the users are not happy. Use google to find out more information – we suggest typing the site's name followed by the word scam. For example, try "onbux scam" – you'll never know if the results are what you expected.

✖ ***Being picky with payments***

If a site pays certain members, but does not pay others, that is a big red flag. It probably means they are running out of money, so they can only pay a small amount of members. Many bux sites rely on ads and upgrades for funds, and if the funds run out, then they will not be able to pay its members. If you have a pending cash out and have not received your payment yet, then send a support ticket and see what happens. Hopefully they are just having delays – but always expect the worst case scenario.

✖ ***Problems with Paypal & Alertpay***

The whole point of joining a new site is to cash out, right? Then what if you can't, because the site is having problems with Papyal or Alertpay? If that happens, that is a red flag, an indication that the site is going downhill.
