**Subject:** RE: DFE Foundation Prototype

All,

I've taken John's low-level design & used it as a base for a WBS (work breakdown structure) doc (attached). I put what I've already completed & the approximate time it took me to complete the tasks. I started on the User Admin tab & added a Views tab to the end. Maybe we can use this as a task list for ourselves & an estimate provider to Pat?

Thanks,  
Marc
