

# IS ANYBODY LISTENING ?

### Start bus service

We the students of Pakherpora are facing a lot of problems due to bad transport service on Pakherpora-Pulwama road. The service on this route comprises of 18 seater Mini Buses, which is grossly inadequate as against heavy rush of travellers. We students alone on this route number more than 500 and in the absence of bus space, we are forced to sit on roofs and hang on the sides of buses. The road is covered by big trees which often results in injuries to students. We request RTO Pulwama to look on the matter and start 50-seater bus service on this route.

**Imtiyaz Khan**  
Students from Pakherpora

### Bad roads

We would like to draw attention of the concerned authorities towards the bad condition of our road, which connects three villages Buchoo, Pushnag and Puthar, 5-6 kms from national highway. This road is totally damaged with large pits everywhere. It is so narrow that two vehicles hardly pass at a time on this road. One more problem is overgrown trees and bushes along the sides of the road, which dangerously obstruct the vehicular movement. We humbly request the concerned authorities to look into the matter and take regulatory measures to improve the present condition of our road.

**Abdul Hamid**  
Buchoo

### Beggars Everywhere

It is quite depressing to watch large number of outside professional beggars freely roaming across length and

breadth of Srinagar city particularly near shrines, mosques, temples, educational institutions, hospitals, petrol filling stations and public parks. They often compel people to pay to them. People don't know how to get rid of this trouble as there is a strong suspicion of an organised mafia behind these beggars. No doubt a human being has to extend a helping hand to deserving persons like orphans, destitute or specially-abled persons, but not to those who can easily manage their livelihood. Time demands that both state administration and the people collectively uproot this menace from the valley.

**Fayaz Ahmed Khan**  
Batamaloo Srinagar.

### Playground needed

The youths of Pinglena Pulwama have to face a dire situation due to non-availability of a play ground. On the other hand we have large pieces of land which are unused and don't belong to anyone. Like in Bateh Weard where there is a ground but there are so many trees which create problems during playing. Children play on roads, footpaths as there is no ground to play. I request the authorities to kindly survey the area and select a suitable land for turning it into a play ground.

Pinglena, Pulwama

### Expedite selection process

We had applied for the post of Computer Operator/Data Entry Operator in Jammu and Kashmir High Court in the year 2007. Last year roll no. slips were issued to the eligible candidates. The examination which was scheduled to be held on May, 2013 was post-

Footpath in shambles on Amira Kadal in Srinagar.

PIC: AMAN FAROOQ/GK

poned and till date no examination has been conducted. As we have crossed the age bar, this is our only hope of getting government employment. We therefore request the concerned authorities to look into the matter and expedite the process of selection.

**Khalid Ahmad**  
Buchpora, Srinagar.

### Connect drains

This is regarding connectivity of drains in Lalbazar area, which was bound to be completed by June, 2014. Till date no such activity is seen in the area of Housing Colony, Lalbazar, with the result macadamisation of internal roads of this area is pending for the last five years. Concerned authorities are requested to kindly take necessary initiatives to connect the drains and macadamise the roads at an earliest. Thousands of

people are suffering due to these bad roads.

**Hamid Waheed**  
Lal Bazaar

### Potholed roads

We, the residents of Irmilane, Budshah Nagar, Natipora are suffering from lack of proper drainage system and concrete roads. The whole colony is potholed, due to which all the residents are facing acute hardships. We had brought the matter to all the concerned authorities and MLA, but nothing was done on ground. We request the concerned authorities to construct the deep drains and improve the condition of the roads at an earliest so that we don't have to suffer anymore.

**Irshad Hamid**  
Residents of Irmilane, Budshah Nagar, Natipora

### Release our salaries

The teachers, working under Sarva Shiksha Abhiyan (SSA), have not been paid their salaries for the last four months creating immense problems for them and their families. For some it is their only source of income. The longer and unknown delay, in releasing the salaries, is making it impossible for the teachers to arrange for their basic needs like ration, clothes, and school fees of children, medical expenses, electricity and water dues. The financial crisis is even affecting their performance as they are unable to focus and that is harming the academic work of the poor students studying under these teachers. Hence, the state government is requested to release the pending salaries of these teachers with immediate effect so that they do not suffer any more.

Kulgam

### Defunct Transformer

We, the residents of village Tilagam Bala are facing acute electricity shortage for the last one and a half months due to defunct transformer. The damaged transformer which was taken to PDD workshop Pattan by our youth was returned ten days later without rectifying its fault. The transformer is only 100 KV which is too little a recipe for about 100 households comprising of three habitations namely Mir, Pandith and Kumar Mohalla. Now, our request to the concerned MLA and department is that the transformer be replaced by a 250 KV or make available another transformer that can take off the extra load. If we are not that lucky, at least, repair the old one.

### Faulty book

Recently the Kashmir University held entrance test of M.Ed (Distance Mode) 2014 and when the answer key was uploaded, the situation was totally confusing. Many keys were shown wrong on the website but they were right according to the book written by university faculty S.A Bhat and G. A. Wani Asst. professor department of education. When we went to the office of Dean Academic Affairs he denied keys being wrong and told us go to the author of the book for clarification. When we went to the author of the book he replied casually that yes it is his fault. We want the higher officials to take a strict action against the university faculty for destroying the career of students by publishing such wrong books.

Every year lecturers of school education are transferred to Ladakh division for a period of two years and after completion of two years they are repatriated back to the valley. This year the lecturers who completed their tenure were issued transfer orders before the Model Code of Conduct (MCC) of parliamentary elections. Even as the MCC was lifted, no new lecturer has joined in Ladakh and due to which we are not being relieved. We are suffering a lot due to the situation for no fault of ours. It is therefore requested to concerned authorities to resolve our problem as soon as possible.
