

CARDING THE WORLD

by HermesNWO

on WSM

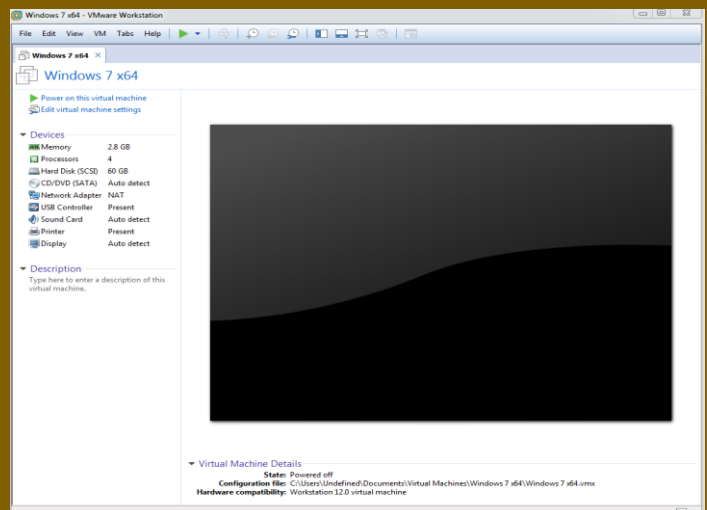

Hey my friend, if you had bought this tutorial on WSM you're in the legit way to become a BlackHat 😊 😊

What you need to make a good carding :

If you don't realized one step, don't go therefore, try again, again, and again !!

1 – You need a windows 7 x64 OS !

2 – Download VMWARE and create a second windows 7 x64 setup !

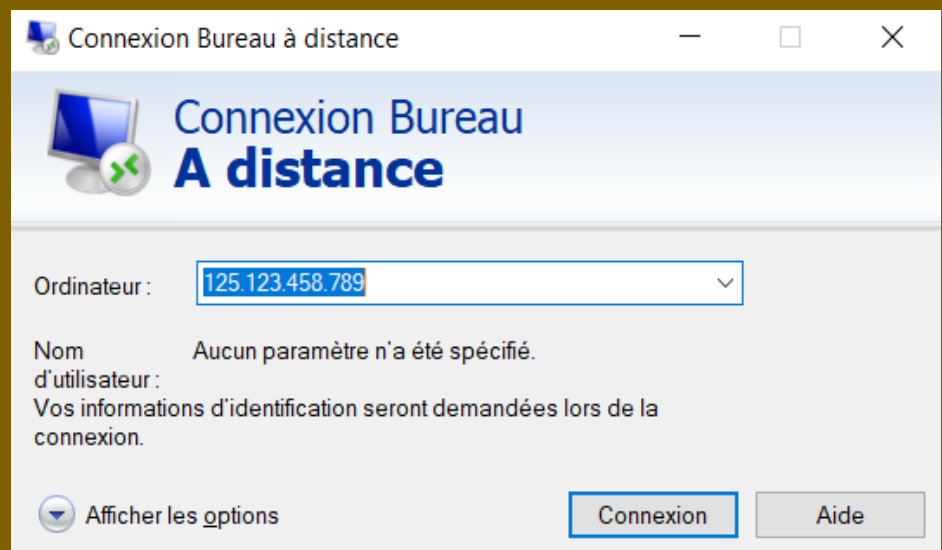

3 – Enable RDP on your VMWARE !

If you don't know how to do it go on youtube and put this :

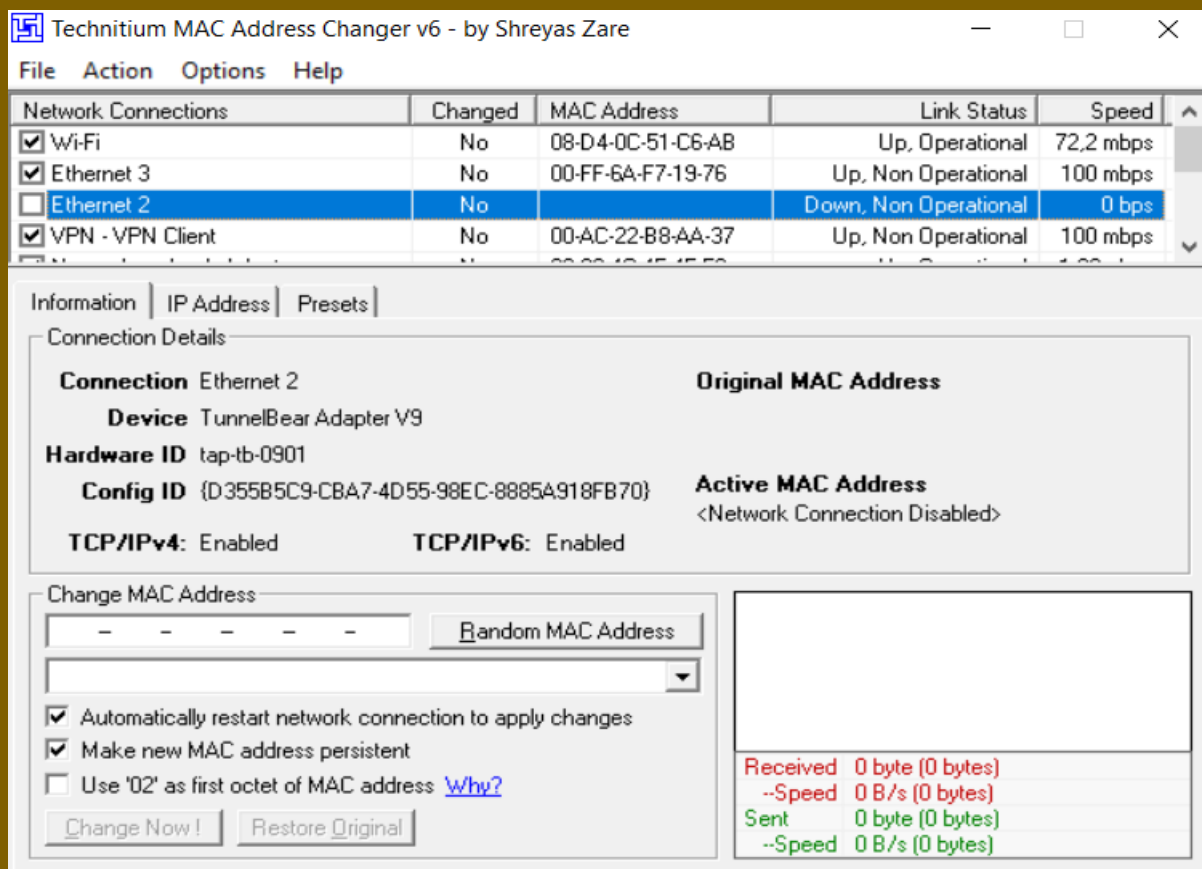

« How to enable RDP win 7 VMWARE » it's easy to do my friend !

4 – Connect to your VMWARE with RDP connect, it's make a IP's & DNS bootloop, you're real computer has no fingerprint !!

5 – Download TMAC changer here :

<http://www.mediafire.com/file/9bh6ahhk9hoxcfl/Technium%20Mac%20Changer.rar> (pass : TotalBlackout8)

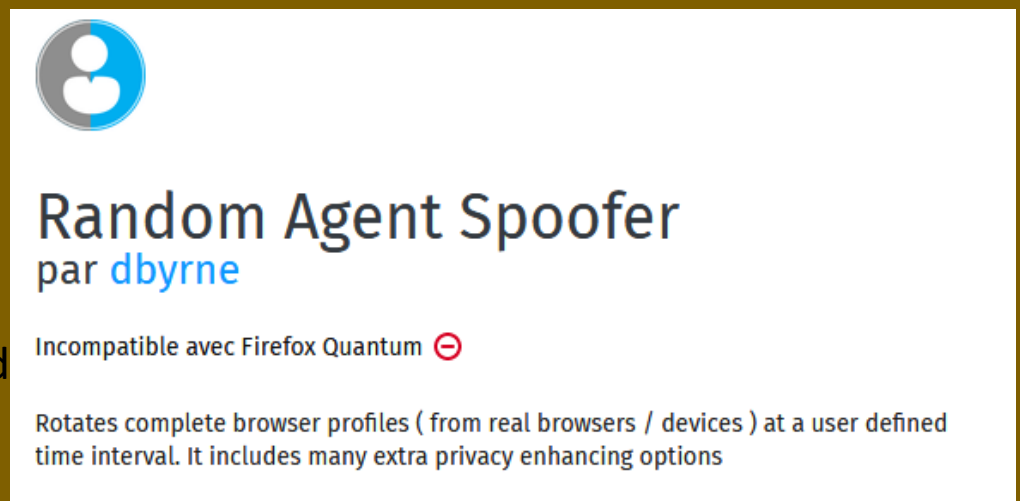

6 – Change all you MAC into random MAC !! MAC adress is the electronic adress that identify your electronic gadget, except for Apple (lol).

7 – Download Firefox 45.3.5 here :

<http://www.mediafire.com/file/8sbpzn93kn706n3/firefox-sdk.rar>

8 – Add this addons Agent Spoofer to your Firefox (better than ANTIDTECT and FRAUDEVOXVM lol) and create your victim fingerprint ! The goal of carding is identity fraud, you must find your victim's fingerprint and try to spoof his identity as much as you can !

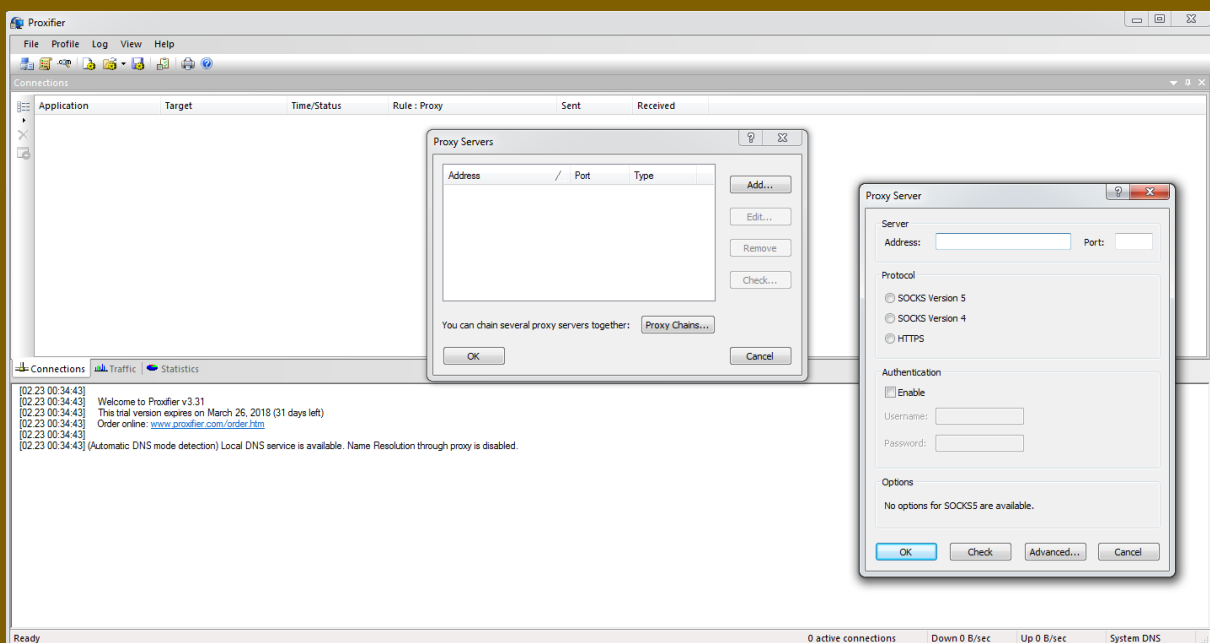

9 – Go download Proxifier, the best proxy connector (I council you to buy it, 31 days trial version)

Random Agent Spoofer
par **dbyrne**

Incompatible avec Firefox Quantum ⚠

Rotates complete browser profiles (from real browsers / devices) at a user defined time interval. It includes many extra privacy enhancing options

10 – PM me on WSM to get a private socks5 proxy for your 1st working carding !

11 – Find a good Cardable websites. Go on the clearnet

And find some cardable websites !

Working Worldwide Cardable Sites List

January 1, 2018 By [Shubham Meena](#)

Worldwide Cardable Sites list with method is going to be shared in this article. All those who have wasted much amount in trying random websites will get much help throughout this post. Here, what we will share is really like a Heaven for you. You will get lots of easily cardable websites list in below section. We will share all category sites including clothing cardable sites, cardable sites for electronics and much more.

There are lots of people wants to know about **New worldwide cardable sites**. It is the toughest thing which all carders faced. Many people searches on the Google for **cardable websites with working method** which ships all over the world. So here I am going to share all easily cardable sites with less security.

12 – Create a fake mailbox : It's easy trust me!

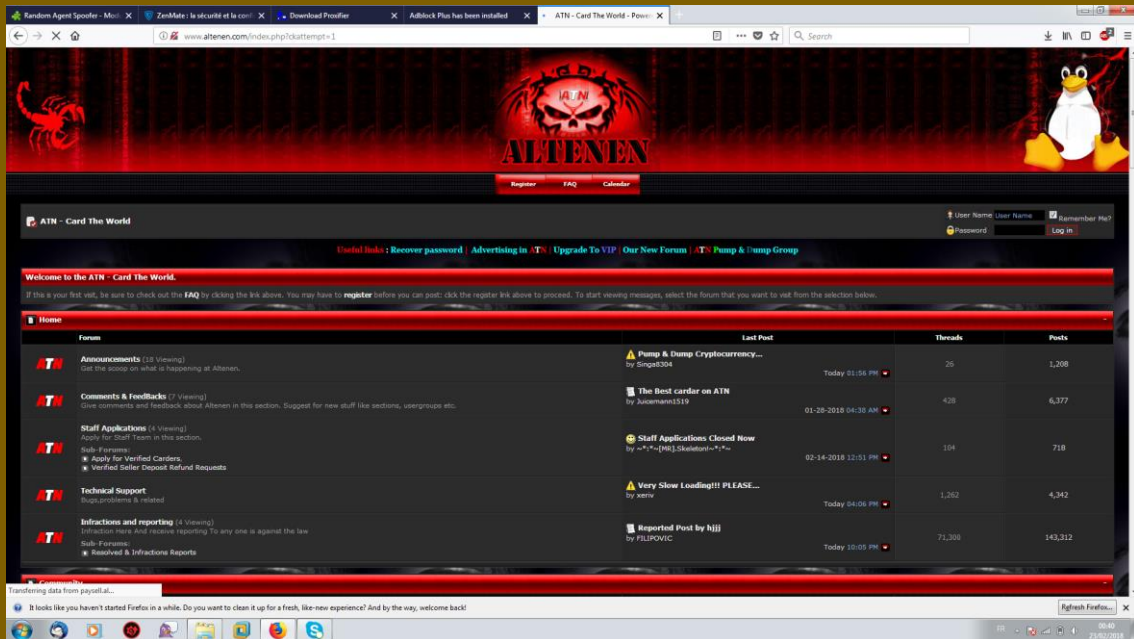

Go to the waste collection and ask for a mailbox ! For example me, I'm a frenchboy from and I'm making delivery in a industrial No one is going to ask if you exist for just put a fake name and that's all ! must do this by night, at 3 :33 AM

Lyon, zone. real, (You when

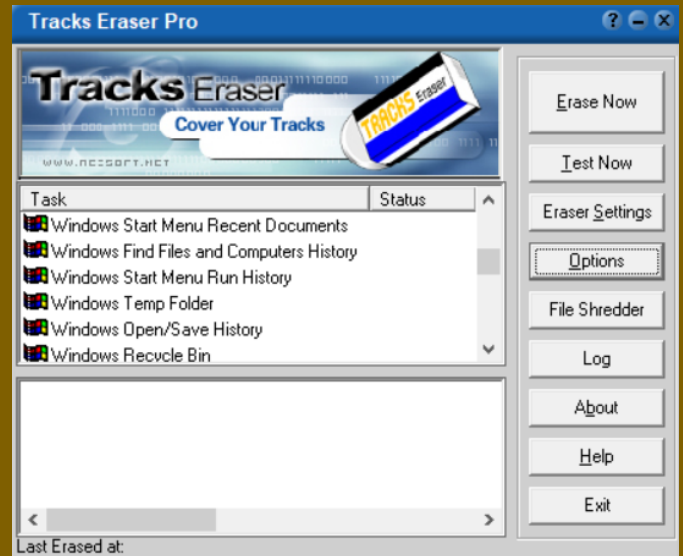

everyone is sleeping, hide your car ID, put fake clothes, go on the random point, find adress with google maps, and deposit your mailbox with a woodpost down to the plat.

13 – Create an account on ATN card the world under VPN (be

aware they're all bastards), and go learn how we card the world ! Don't worry, they're friendlynoob !!

14 – Card the website ! I hope you already know how to do it, I just provides you the best set up with a closed firefox !

15 – If you did make a successful carding, download Tracks Eraser PRO-cracked :

http://www.mediafire.com/file/ufaixk552omn7ap/Track_eraser.rar (Go OFF internet, 1-setup 2 -enter key provided)

(Pass : TotalBlackout9)

P.S : Receiving by postalbox is the easiest way to card online !
If you wan't to card directly to get \$\$\$ it's harder (you need
some security breach with hackers 😊 !! One of my friend as
a 3Dsecure breach 😊 Maybe a day on my shop for 3000\$)

P.S.S : Be aware, every year thousands of hackers are going
into jail because they do not
have secured themselves
enough !! Make proxychains
with 20 proxy (proxifier) and
you will become
unfoundable !

As we say, who don't try, will never had !
